10. [ ] LIAISON I took a call from Rick Gilmore, on the staff of the Subcommittee on Multinational Corporations, Senate Foreign Relations Committee, who said that even though Senator Dick Clark (D., Iowa) is not going to Moscow that the Senator felt that Mr. Gilmore should still go. Mr. Gilmore wanted to know what I thought about his making the trip without the Senator. I told him that we were not able to comment one way or the other on this as the matter was outside our field of responsibility. He asked me to think about it and call him back.

12. [ ] LIAISON Took a call from Joan Maloney, of the International Division of GAO. Maloney, who has a top secret clearance, is currently working at the Pentagon on a GAO project to study the American military posture in the Far East. She has learned of the existence of the AEGIS system--a CIA-run computer program which could give her a bibliography of all classified publications on the subject. She asked that a bibliography be prepared for her and gave me the names of Agency officials responsible for the system. I told her I would check with these employees.
